WAYLAND, Mass., April 2, 2007 -- Tourtellotte Solutions, a global leader in off-the-shelf and custom supply chain software for the retail, consumer goods, and pharmaceutical industries, today announced that it has joined the Oracle Partner Network and signed an agreement to resell Oracle's complete infrastructure software stack. Through this agreement, Tourtellotte has the ability to sell the world's #1 database, Oracle(R)Database 10g, and the fastest growing middleware suite, Oracle Fusion Middleware, as well as Oracle's Standard Edition One products, priced and packaged specifically for small and medium businesses. By adding Oracle infrastructure software to its portfolio of solutions, Tourtellotte Solutions is providing its customers with infrastructure software that meets their growing IT needs.

Tourtellotte Solutions can now offer Oracle products to its custom enterprise solution clients, and also bundle Oracle Database 10g with its RockBlocks(R) 7.1 application. RockBlocks is the most widely used sourcing solution for retail, consumer goods, branded apparel, and footwear manufacturers.

"Tourtellotte Solutions is delighted to be working with Oracle to offer our customers this portfolio of leading-edge solutions," said David Diamond, COO of Tourtellotte Solutions. "Oracle's infrastructure software, in combination with RockBlocks, offers unparalleled ease of use, manageability, reliability and high availability. There is no doubt that we can help our customers realize immediate benefits of improved performance and lower management costs. The bottom line is that they can save time and money."

About the Oracle Partner Network

Oracle Partner Network is a global business network of over 19,000 companies who deliver innovative software solutions based on Oracle software. Through access to Oracle's premier products, education, technical services, marketing and sales support, the Oracle Partner Network provides partners with the resources they need to be successful in today's Internet economy. Oracle partners are able to offer customers leading-edge solutions backed by Oracle's position as the world's largest enterprise software company.

About RockBlocks Group, Inc.

RockBlocks® is a complete global trade management solution that allows retailers to accelerate, automate, streamline and optimize their supply chain, from product design to delivery. RockBlocks'® Web-based, collaborative platform enables retailers to visualize the entire sourcing pipeline at a granular level, with data presented any way it is required. RockBlocks'® powerful process engine is a tool that drives efficiency throughout the entire organization yielding both qualitative and quantitative ROI. RockBlocks® has a dramatic impact on overall profitability and top-line growth. Customers including JCPenney, Staples, Bon-Ton, Argos, Home Depot, Target, Hanes, Payless and Macy's leverage RockBlocks® solutions to drive product innovation and speed to market; lead cycle and expense reduction; and operational efficiency and productivity improvements. RockBlocks® users source over \$100B in goods from 50+ countries; manage 40M+ stockkeeping units; track 2M+ containers around the world; plan and monitor 100K "critical path" events; provide production visibility and support into 75K suppliers; product managers; merchants; logistics planners; financial managers; agents; factories, service providers and financial institutions. RockBlocks® is the most widely deployed solution in the industry and is used by three of the top ten largest retailers, six of the fifty largest retailers and seven of the world's fastest-growing retailers.

RockBlocks is headquartered outside of Boston in N. Billerica, MA and supports operations throughout North America, South America, EMEA and Asia.
