

# Arigo Advanced Logistics

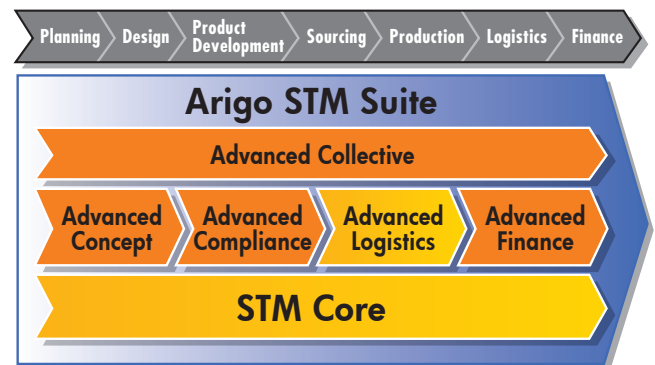

## Know where your goods are at all times.

- React quickly when schedules change – to get your containers on the right vessel.
- Gain visibility into the gap between Ex Works and Receipt of Bill of Lading.
- Manage logistics and suppliers in one system to drive the lowest landed cost and best profit.

**Arigo Advanced Logistics provides complete cost and tracking control to hit key volumes and ship windows with better margins.** Manage costs and schedules for factories and logistics in one system to drive the lowest landed cost. Pre-configured templates make it easy to compare and optimize trade lanes, routing, and equipment utilization. Manage customs, carrier, and carton information in the same system to eliminate delays, then track and trace goods at the item level to know where merchandise is at all times.

React quickly when changes occur. When Ex Works/Ex Factory dates change, proactive alerts help the Logistics Team respond quickly. Easily revise container, vessel, and routing plans. Update carrier, customs, and container documentation at the same time. Alerts and automated workflow keep the entire team on the same page.

Advanced Logistics is an STM Suite Advanced Module. With an extensive library of pre-configured workflow templates and best practices, any size business can quickly deploy powerful logistics capabilities tightly integrated with global sourcing in one system.

Advanced Logistics provides comprehensive visibility into logistics costs and schedules integrated with sourcing.
